

Position: Prompt Engineer (Intern)

Location: Belgrade Office (3 days in-office, 2 days remote)

About Novet:

Novet is at the cutting edge of AI in the legal industry, developing advanced Large Language Models (LLMs) tailored for complex contract analysis and other legal applications. We are seeking an enthusiastic **Prompt Engineer Intern** with a keen interest in AI to help us refine and optimize our AI systems.

Role Overview:

As a Prompt Engineer Intern, you'll work closely with our AI team to craft, test, and iterate on prompts, improving the performance and accuracy of our language models. If you're passionate about LLMs, enjoy solving puzzles, and thrive in a team environment, this role offers a fantastic opportunity to gain hands-on experience with advanced AI.

Responsibilities:

- Design and test prompts for various use cases, optimizing them for performance and precision.
- Analyze model responses to understand behaviors and improve outputs.
- Collaborate with team members to brainstorm, prototype, and implement prompt-based solutions.
- Work with **JSON** and other data formats to structure and manage prompt data effectively.
- Stay current with developments in AI and LLMs to leverage new techniques and strategies.

Qualifications:

- Strong interest in **LLMs** and **AI**, with a passion for technology and innovation.
- Analytical thinker who enjoys solving complex problems and tackling challenges.
- Detail-oriented and curious, with a desire to understand how things work.
- Familiarity with **JSON** and other data formats.
- Excellent team player, comfortable collaborating and sharing ideas in a group setting.

Details:

- **Position:** Paid Internship (with the possibility to join full-time upon completion)
- **Location:** Belgrade office (3 days in-office, 2 days remote)
- **Compensation:** Competitive hourly rate

Why Novet?

Joining Novet offers a unique opportunity to work on the frontier of legal AI, helping to shape the

next generation of LLMs. As an intern, you'll gain hands-on experience in a rapidly evolving field, with the potential to transition into a full-time role.

Application:

To apply, please send your resume and a brief description of why you're interested in prompt engineering to contact@novet.ai.
