

This is a full time 8-week paid internship with a potential for further career growth in Telesign.

Application Deadline: 31st May 2023.

Internship Start Date: 10th July 2023.

Summary

The **QA Automation Engineer Intern** is responsible for the improvement of the quality of our internally developed software systems. It is involved in all testing activities, both manual and automated, but can also research and propose involvement of new testing frameworks, as well as upgrading existing frameworks. The QA Automation Engineer Intern is a member of Data Engineering team and is expected to work with AWS cloud services.

Key Responsibilities:

- Participation in all end-to-end testing activities, including writing and executing manual, automated, and performance tests for highly complex and distributed backend systems to support core products
- Maintain robust test automation frameworks on multiple application platforms
- Create test plans, test cases, and perform acceptance and manual tests when needed
- Investigate and troubleshoot potential environment and/or test issues
- Cooperate with other engineers to produce high quality and resilient products

Essential Requirements:

- 0-1 years of test automation experience or software development with OOP (Python, Java, C#)
- Solid skills and knowledge of Computer Science fundamentals.
- Relational databases knowledge (SQL Server, MySQL, PostgreSQL, etc.)
- Strong analytical and problem-solving skills with attention to detail
- Excellent oral and written communication skills
- Computer Science student/degree and/or equivalent work experience

Preferred Qualifications:

- Experience writing automated tests using any test automation frameworks
- Understanding of QA principles and methodology and the ability to apply this understanding directly to concrete QA problems
- Experience with REST API testing
- Experience with Linux
- Understanding Git
- Experience with Selenium
- Experience with JIRA, or other ticketing/bug tracking system

We are offering

- Paid internship
- Organized mentorship
- Organized onboarding
- Soft skills training
- Challenging but also a friendly working environment

About Telesign

Telesign connects and protects online experiences with sophisticated customer identity and engagement solutions. Through APIs that deliver user verification, data insights, and communications we solve today's unique customer challenges by bridging businesses to the complex world of global telecommunications.

Telesign is proud to be an equal opportunity employer. We believe our differences help us create a better workplace, a better product, and a better community. We do not discriminate on the basis of race, color, ancestry, religion, national origin, marital status, pregnancy, sex, sexual orientation, gender, gender identity or expression, age, genetic information, disability, military or veteran status, or any other basis protected by federal, state or local law, ordinance or regulation.

Telesign is an Affirmative Action Employer and as part of the commitment to AAP, it will seek to ensure affirmative action to provide equality of opportunity in all aspects of employment, and that all personnel activities, such as the recruitment selection, training, compensation, benefits, discipline, promotion, transfer, layoff and termination processes remain free of illegal discrimination and harassment based on protected characteristics.
